13TH LATEST ADVANCES IN PSYCHIATRY SYMPOSIUM
BIOPSYCHOSOCIAL APPROACHES TO PSYCHIATRY

Wednesday 12th March 2014
Royal College of Physicians,
Regent’s Park, London

A collaboration between Progress and the International Society for Affective Disorders
Dear Colleague,

We warmly invite you to the 13th Latest Advances in Psychiatry symposium on behalf of the International Society for Affective Disorders (ISAD) and the journal Progress in Neurology and Psychiatry.

The symposium will focus on Biopsychosocial Approaches to Psychiatry. We are delighted to have some excellent speakers, including Professor Sir Simon Wessely, who will be giving the Keynote Lecture entitled ‘Psychiatry under fire’.

The symposium is intended to be part of a structured CPD programme, so the objective going forward is to provide you with independent, up-to-date, practical information that will help you achieve your personal CPD objectives and in your everyday clinical practice. We hope the opportunity to hear from leading clinicians and to meet with colleagues will make for a productive and enjoyable day.

We look forward to welcoming you to what remains one of the premier events in the UK psychiatry calendar.

Kind regards

Professor Allan Young  
Treasurer of the International Society for Affective Disorders

Tim Dean  
Publisher, Progress in Neurology and Psychiatry
